

Procurement organizer: PGE Baltica sp. z o.o.
Contact: zakupy.pgebaltica@gkpge.pl

Planned procurement tenders to be Initiated in 2026

No.	Detailed description of the subject of contract	Type of contract	Planned tender publication date
1	Technical Advisor.	Services	Q1
2	Preparation of the Environmental Impact Assessment Report and obtaining the Environmental Decision for the grid connection required for Offshore Wind Farm Baltica 9.	Services	Q1
3	Development and approval of technical expert assessments related to maritime safety and mineral deposits, required for obtaining the Building Permits.	Services	Q1
4	Design of the power export system for the Offshore Wind Farm Baltica 9, including development of the FEED design and the Building Permit Design, together with obtaining the Building Permit for the offshore and onshore power export infrastructure. The scope includes land rights acquisition, preparation of the Geological Engineering Design (PRG), execution of geological investigations, and preparation of the resulting documentation for the onshore section of the export system (cable trench area and onshore substation site).	Services	Q1
5	Preparation of the Geological Engineering Design (PRG), execution of geological and laboratory investigations, and preparation of the resulting documentation for the land-to-sea Horizontal Directional Drilling (HDD) section for the Offshore Wind Farm Baltica 9.	Services	Q1
6	Concept Design together with system analyses for the offshore wind farm and the associated power export system. The scope includes, among other tasks, a multi-variant routing analysis for the offshore and onshore sections of the grid connection, with identification of the optimal route option.	Services	Q1
7	Development of the Pre-FEED Design for Foundations.	Services	Q1
8	Geotechnical companies.	Services	Q1
9	Provision of technical and business advisory services for the preparation and execution phases of offshore wind farm development projects.	Services	Q2
10	Preparation of technical procurement documentation for the TIER 1 tender packages.	Services	Q2
11	Geotechnical investigations for Inter-array cable routes.	Services	Q2
12	Invasive and non-invasive archaeological investigations on the plot designated for the onshore substation and transmission infrastructure.	Services	Q2
13	Advisory services covering environmental analyses and legal opinions within the ongoing transboundary procedure-risk mitigation during the proceedings.	Services	Q2
14	Preparation and approval of the Geological Engineering Design (PRG) for the detailed geotechnical and geophysical campaign.	Services	Q2
15	Preparation of the Meteorological and Oceanographic Study for Offshore Wind Farm Baltica 9.	Services	Q2
16	UXO Campaign preceding the detailed geotechnical campaign; GPDD campaign.	Services	Q2
17	Execution of comprehensive environmental baseline surveys for the grid connection within area 44.E.1 (both offshore and onshore) + FEW Baltic II, together with preparation of the Environmental Decision (DŚU) application, including all annexes and required documentation for obtaining the Environmental Decision. The scope includes participation in the administrative procedure and securing the Environmental Decision.	Services	Q2

18	Amendment of the conditions of the Environmental Decision issued by the Regional Directorate for Environmental Protection (RDOŚ) in Szczecin, Decision No. 12/2025 dated 27 June 2025, reference: WONS.420.13.2023.KK.29, for the project involving the construction of the 44.E.1 offshore wind farm, as well as amendment of Decision No. 14/2021 dated 30 November 2021, reference: WONS-OŚ.420.20.2020.KK.30, and Decision No. 15/2025 dated 21 July 2025, reference: WONS.420.20.2020.KK.59.	Services	Q2
19	Obtaining the Environmental Decision for the power export from FEW Baltic II via OSS Offshore Wind Farm Baltica 9 (IAC).	Services	Q2
20	Support during the detailed geophysical and geotechnical investigations in the areas affected by UXO (Unexploded Ordnance).	Services	Q2
21	Supply and Installation of Offshore Wind Turbines.	Supplies	Q3
22	Advisory Services in the areas of geology, geophysics and geotechnics, including comprehensive ground modelling and offshore supervision.	Services	Q3
23	Detailed Geotechnical Campaign.	Services	Q3
24	Supply of Inter-Array Cables (IAC).	Supplies	Q3
25	Supply of Offshore Export Cables (EC).	Supplies	Q3
26	3D UHRS Geophysical Survey.	Services	Q3
27	Supply of Offshore Substations including Foundations.	Supplies	Q4
28	Supply of Foundations for Offshore Wind Turbines.	Supplies	Q4
29	Transport and Installation (including vessel chartering) of Offshore Wind Turbines.	Services	Q4
30	Transport and Installation of Foundations for Offshore Wind Turbines.	Services	Q4
31	Installation of Inter-Array Cables (IAC).	Services	Q4
32	Installation of Offshore Export Cables (EC).	Services	Q4
33	Transport and Installation of Offshore Substations.	Services	Q4
34	EPC Contracting for the Onshore Substation Scope of the Offshore Wind Farm Baltica 9 Grid Connection.	Construction Works	Q4
35	EPC Contracting for the Onshore Cable Route (Linear Infrastructure) of the Offshore Wind Farm Baltica 9 Grid Connection.	Construction Works	Q4
36	Execution of the Land-to-Sea Horizontal Directional Drilling (HDD) for the power export connection of the Offshore Wind Farm Baltica 9.	Construction Works	Q4
37	Development of Front-End Engineering Design (FEED) for the Offshore Wind Farm.	Services	Q4
38	Contracting of advisors required for obtaining Project Finance: financial, legal, technical, insurance, tax, and hedging advisors.	Services	Q4
39	Support in preparing environmental documentation required for Project Finance, including updating the environmental baseline survey for the onshore area of the Offshore Wind Farm Baltica 9 + FEW Baltic II.	Services	Q4
40	Selection of the Certification Body for the Offshore Wind Farm Baltica 9 Project.	Services	Q4
